

I am writing in response to the possible expansion of the LPFM stations which would impact the availability of being able to hear KLOVE in my area. K-LOVE is a family oriented station. I don't have to worry about what my grandchildren might hear when listening to this station. K-Love has music and commentaries which are upbeat and have positive values. These values are missing in other broadcasts. Please do not allow the LPFM to take priority over the FM translator service and lose our ability to listen to the station that instills values in our family.
